

VeinGogh Procedure Instructions

Before each treatment:

- It is recommended that you eat a meal or have a light snack prior to treatment.
- Thoroughly clean area to be treated on the day of the procedure. Do not apply any make up the day of procedure.
- Do not use any lotions or moisturizers the day of procedure.
- Let us know if you are taking any new medications or if you are pregnant or nursing as this may affect your ability to receive treatment.
- Please notify our office **prior to** your scheduled treatment if something has occurred (i.e. injury or illness) that will interfere.
- Do not apply tanning solution for 2 weeks before procedure and 4 weeks after.
- Purchase Arnicare cream to be used before and after treatment.

After your treatment:

- Moisturizers such as Aloe Vera or Aquaphor, can be applied immediately after treatment and 2-3 times daily.
- Avoid Scratching.
- Do not apply foundation or make-up for 1-2 weeks or until scabs are healed. Use mineral based powder if make-up is required.
- Complete healing takes approximately 13 weeks. It will look worse for the first 2 weeks. You may see marks that look like a "cat scratch", then scabbing.
- This procedure will treat spider veins and cherry angiomas. Depending on the anatomy/size of the vein(s)/cherry angiomas it may require more than one treatment.
- Expect to have bruising. Treatment sites normally look worse before they look better.
- Redness, heat, swelling, and drainage are not common. Abnormal symptoms should be reported.
- For achiness or swelling: Ibuprofen 600mg, by mouth every 6 hours, with food is recommended. If you are unable to take Ibuprofen, it is fine to take two Extra Strength Tylenol every 4-6 hours.

By signing below, I acknowledge that I have read the instruction form in its entirety. My healthcare provider has adequately informed of all the instructions. All questions have been answered to my satisfaction.
